Purpose of School Council

\*The purpose of the school council is to better our school. It is mandatory that we have a school council and is otherwise unlawful. We will meet to discuss important events that will take place at our school, discuss any concerns that we have, and make some decisions for our school.

\*There will be a training held for all new members. The dates are to be determined.

\*We are striving to be **CCRPI Champions** and that means being aware of all ways that we can improve our school so that there are no points left on the table. We want to focus on areas like academics, reading lexile scores, student growth, and student attendance. We will take control of the factors that we can control.
